Notice of Planned Power Outage

Dear PROMENADE HOA,

To keep our crews safe while they maintain or upgrade the electrical equipment in your area, we must **temporarily turn off your electricity**.

We understand it's inconvenient to be without power for any length of time and always try to limit the number of customers impacted by planned outages. Our crews will work quickly and safely to restore power as soon as possible.

PLEASE NOTE: Unsafe weather conditions or unexpected events may prolong service interruptions or force us to reschedule the outage to a different date.

Outage Details

Plan Number: 363368		Circuit: 1287	
Estimated Start		Estimated Completion	
Sunday, August 30, 2026 at 10:30 PM		Monday, August 31, 2026 at 04:00 AM	
Reason: SWITCH REPLACEMENT 8857 LIGHTWAVE AVE HM SAN DIEGO, CA 92123-6448 SDG&E Electric Meter Number: 5361728			

Landlords/Property Owners with Tenants: If the SDG&E bill is in your name, be sure to share the outage details with your tenant(s).

Medical Devices: If you depend on electricity for your health and/or medication, it is recommended that you create a backup plan for outages. If you have questions about backup power for your medical equipment, please contact your doctor or equipment supplier.

Generators: Backup power can help you during an outage, but generators can be dangerous if not used correctly. Before using a generator, talk to an electrician to make sure the setup is safe for your home or business, and notify SDG&E by calling 1-800-411-7343. Visit sdge.com/generator to learn how to use backup power sources safely.

For additional information on how to prepare for planned outages, visit sdge.com/PlannedOutages.

Sincerely,
SDG&E Customer Care Team
